About Me:

I am an architecture student focused on spatial thinking and design development through continuous production. My experience with 3D modeling and visualization allows me to explore ideas and communicate architectural concepts clearly.

I approach design with a disciplined and adaptive mindset, shaped by working in different environments and team-based experiences.

Education:

Pamukkale University
Architecture
3.09 GPA

Language:

Turkish
Native
English
B2 - (Cambridge Linguaskill 170)

Experience:

Bahadır Kul Architects
Intern & Remote 3D Visualization Artist

Atölye B
Intern-3D Artist

Produced architectural renderings and handled post-production processes. Prepared visual content for social media and project presentations, contributing to the studio's visual communication.

Reform Yapı
Intern

Prepared technical drawings using AutoCAD for ongoing construction projects. Supported the production of application drawings and gained experience in market-oriented design and detailing processes.

Fiverr/Bionluk
Freelancer

Produced 3D models and digital illustrations for client-based projects. Managed the process from concept to final delivery, adapting visual output to different project requirements.
